📍 Lagos, Nigeria

CAREER OBJECTIVE

To use my skills in HTML, CSS, and JavaScript to create innovative and user-friendly websites and applications that provide a seamless and enjoyable experience for users. I am excited to work on a team with designers, back-end developers, and project managers to bring ideas to life and build successful projects. I am eager to learn and stay up-to-date with the latest web development technologies and trends, and to contribute my knowledge and expertise to the growth and success of a company. Efficient professional with my one year experience and a proven knowledge of document imaging, desktop technology and emerging technologies. Aiming to leverage my abilities to successfully fill the front-end developer role at your company.

SKILLS

Strong knowledge of HTML, CSS, JavaScript and JavaScript frameworks.

Proficiency with front-end frameworks such as React and other JavaScript framework.

Experience with responsive design and mobile-first development.

Ability to write clean, efficient, and maintainable code.

Familiarity with version control systems such as Git.

Good problem-solving and debugging skills.

Strong communication and collaboration skills.

A keen eye of design and attention to detail.
